On 7/14/2019 undersigned responded to a vacant lot located at 741 Route 9W, Valley Cottage for a dumping complaint. Anonymous caller stated that throughout the morning a tractor trailer had been dumping piles of concrete on the property. Undersigned observed approximately one dozen large piles of concrete, rock, and assorted metals scattered throughout the property which are commonly used as fill for new construction sites. Several attempts to contact the property owner, OT- Olateju were negative.

On ~~8/17~~ 7/17/2019 undersigned was assigned to the desk at CPD headquarters when OT- Olateju responded to file a report alleging illegal dumping was taking place at the aforementioned location(ref case 19-14093). At the time OT- Olateju advised that he is developing the property to build townhouses but could not identify who was leaving the piles of concrete.

Area checked negative for any suspect vehicle or individuals associated with the dumping. At this time it is unclear if OT- Olateju is responsible for the unpermitted dumping or a third party is involved. Additional area checks to be completed throughout the remainder of the tour.

On or about June 25, 2019 at 741 Route 9W, Valley Cottage, NY 10989 in the Town of Clarkstown, County of Rockland, State of New York the defendants, Akinyinka Olateju and 9W Valley Cottage LLC, individually, and while aiding, abetting and acting in concert with each other, did commit violation(s) of the following provisions of the Code of the Town of Clarkstown :

- Section 249A-28 – Maintenance, inspection and repair of stormwater facilities.
- Chapter 109-14 – Noncompliance

**Chapter 109-14 – Noncompliance – It is a violation of this chapter for any person (as defined in section 109-1) to construct, alter, repair, move, remove, demolish, equip, use, occupy or maintain any building, structure, parcel of land or portion thereof in violation of any provision of this chapter or in a manner not permitted by an approved building permit or certificate of occupancy. Failure in any manner to comply with a notice, directive or order of any code enforcement personnel is a separate and distinct violation of this chapter.**

In that said defendants did commit the following acts and/or omissions and/or allowed or permitted the following condition(s) to exist, which I personally observed.

The source of my information and belief are as follows:

I searched the official records kept by the Town Clerk's office of the Town of Clarkstown, County of Rockland concerning property located at 741 Route 9W, Valley Cottage, NY 10989, (Tax Map 53.13-02-26) and determined the owners of said premises to be 9W Valley Cottage LLC. Upon information and belief and after a review of the records on file with the Town of Clarkstown, Akinyinka Olateju is the principal member of 9W Valley Cottage LLC.

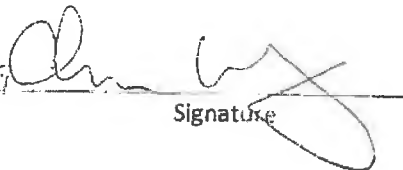

On or about April 9, 2019, the defendants were notified by hand, mail and certified mail of a violation and stop work order to cease all work on the site at 741 Route 9W, Valley Cottage, NY 10989 except work directly related to installing a site erosion and sediment control measure in accordance with the provisions of the NYS Standards and Specification for Erosion and Sediment Control and to stabilize all disturbed or filled areas with seed and mulch.

On or about June 17, 2019, I observed a pile of fill on the premises. Defendants were again notified in person to remove the material from the site as well as to attend to the corrective action stated in the April 9, 2019 violation.

On June 25, 2019, I re-inspected the property and observed the fill had been spread throughout the property and no corrective action had been done.

Defendant has not received the Planning Board Chairman's endorsement of Site Plan because defendants have failed to meet the conditions required under the final site plan approval.
